

## WHAT WHISKEY IS BEST FOR PANCAKES?

Whiskey is a brown liquor made from fermented grain and then slowly aged in barrels. Because bourbon is made with mostly corn and is aged in charred barrels, it has a sweet, smoky taste. It is a favorite for adding to baked goods for this very reason. Much of the alcohol bakes off, leaving behind hints of vanilla and other spirit spices. Whether or not you have bourbon on hand, these pancakes will be great with just about any whiskey. Use whatever you have on hand or make a special trip to the store for bourbon

### 3 easy Steps

Popcake pancake mix

Add 150 to 200ml of chosen Whiskey

Add water as per packaging

Shake

Place bag in machine and server with fresh cream and syrup of your choice
